Louisiana Gaming Control Board Issues Advisory Notice on Prediction Markets to Louisiana Sports Wagering Operators

BATON ROUGE, December 10, 2025 – The Louisiana Gaming Control Board (“LGCB”) issued an [advisory notice](#) to all sports wagering licensees and platform provider permittees that may be exploring opportunities to operate, offer, or otherwise facilitate access to prediction markets, platforms, or event-based contracts tied to future events, sporting events or values in Louisiana and other jurisdictions.

The advisory notice informs Louisiana sports wagering operators that the LGCB considers purported sporting event contracts and certain other event contracts as illegal gambling in violation of the Louisiana Criminal Code and Louisiana Gaming Control Law.

The advisory notice further informs Louisiana sports wagering operators that any direct or indirect involvement in the operation, offering, or facilitation of sporting event contracts may affect a sports wagering licensee, permittee, and associated person’s suitability for licensure or permitting in Louisiana.

Louisiana licensees, permittees, and associated persons are urged to be mindful of their obligations to maintain suitability and comply with all applicable laws in all jurisdictions where they operate.

The public can view a copy of the advisory notice [here](#).
